designs for movement

# AutoTrack *EXPRESS* Rental

AutoTrack *EXPRESS* Rental Service

Rent a copy of AutoTrack including any, or all, of the following modules; Roads Pro, Rail, Parking, Airports and Junctions from the AutoTrack *EXPRESS* Rental Store and complete essential project work, using the latest version of the world renowned AutoTrack design and analysis software, without breaking the bank. You can rent a full copy of AutoTrack by the week and if you need longer, just renew the rental at the special discounted rate. If you want to move it to another computer, no problem, just transfer the licence.

If you decide that, actually this is software you can't afford to be without, then as long as you buy before your rental expires, we will reimburse you the entire rental charge of the modules you buy. It really is a "win-win" situation - you get your work done at reasonable cost but still have the option to buy and get your money back.

Using AutoTrack Junctions to analyse a roundabout

Using AutoTrack Roads Pro to check vehicle access in 3D

You don't need AutoTrack to view the AutoTrack objects that you create, so when the rental period ends you can still present your scheme. The data is stored in the drawing so you don't need to worry about archiving separate data files, and, because the software is fully backwardly compatible, if you need to rent the software again at a later date to rework your scheme you can be sure it will still be able to read your data.

So, if you've been struggling to get by without AutoTrack - maybe you can't get approval for capital expenditure or simply can't justify the cost of a full copy - then why not take this opportunity to try out AutoTrack and solve your immediate access problem, all at sensible prices. **See overleaf for how to rent a copy.**

## Benefits

- *Cost effective for one-off projects*
- *No delays, immediate access to the software*
- *Secure online purchasing*
- *AutoTrack output is recognised by virtually every local and regional authority in the UK*
- *Unlimited technical support included*

# How do I rent AutoTrack?

Renting AutoTrack is really simply.

If you have not yet installed or run AutoTrack on your computer:-

1. **Download AutoTrack:** Download the latest version of AutoTrack from [www.savoy.co.uk/support](http://www.savoy.co.uk/support). Make sure you note where you save it.
2. **Install AutoTrack:** Run the file that you downloaded either by double clicking on it or by accepting the offer to run. Follow the prompts to install the program.
3. **Run AutoTrack:** Double click on the desktop icon AutoTrack for AutoCAD 2012 (or whatever CAD system you use).
4. **Select Rental:** When you see the Welcome dialog select **Enter a Rental Passkey / Run a Rental Version**.
5. **Rent a licence:** Follow the prompts to rent a licence for 1, 2 or 3 weeks.

Alternatively, if you've already got a demo version of AutoTrack installed and running on your computer:-

1. **Run AutoTrack:** Double click on the desktop icon AutoTrack for AutoCAD 2010 (or whatever CAD system you use).
2. **Decline Demo:** When you see the Demonstration Version dialog click **Exit** to return to the Welcome dialog.
2. **Select Rental:** When you see the Welcome dialog select **Enter a Rental Passkey / Run a Rental Version**.
3. **Rent a licence:** Follow the prompts to rent a licence for 1, 2 or 3 weeks.

**If you get stuck, just give us a call on 01580 720011  
or email us at [sales@savoy.co.uk](mailto:sales@savoy.co.uk)**
