designs for movement

AutoTrack Training New Year Offers!

*Ok, so you made the right decision to buy AutoTrack...
...don't waste it by not knowing how to use it efficiently*

*Save time and money on future projects by participating
in one of our training sessions*

Half price for new users!

If you're completely new to AutoTrack then you can train any number of users for half the normal price when you buy it with a copy of AutoTrack.

3 for the price of 2 for existing users!

If you're an old hand then you can still train three users for the price of two or pro rata, six for the price of four, etc.

AutoTrack is an extremely powerful tool and although it can be used in its simplest form straight out of the box, it includes many complex concepts which benefit from a fuller understanding of the product. Our AutoTrack training courses teach you basic theory and then introduce features in a logical sequence using hands-on exercises to **show you** how to use them properly. As such, AutoTrack training should be considered an essential prerequisite to using the software to efficiently solve access problems.

But don't take our word for it, look at what previous attendees have to say...

'Very thorough and informative'

***'What would normally take me an afternoon to complete
I can now do in 5 minutes!'***

Call one of our training team on **01580 720 011** or email **sales@savoy.co.uk** quoting offer code **SO-002** for the half price deal or **SO-003** for the 3 for 2 deal.

Conditions

- Offers apply to all AutoTrack courses
